

READING PASSAGE 2

The Development of the Novel as a Literary Form

A The Development of the Novel as a Literary Form has emerged as one of the most significant topics in contemporary academic discourse. The complexity and multifaceted nature of this subject have attracted the attention of researchers, policymakers, and practitioners across multiple disciplines, all seeking to understand its implications for the future.

B The origins of contemporary research in this area can be traced to pioneering studies conducted during the mid-twentieth century. These early investigations, though constrained by the technological and methodological limitations of their era, established foundational principles that continue to inform current scholarship. Successive generations of researchers have built upon these foundations, progressively refining theoretical models and expanding the empirical evidence base through increasingly sophisticated research designs.

C The mechanisms underlying these phenomena operate at multiple levels of analysis, from the micro-level of individual decision-making to the macro-level of institutional and structural change. At the individual level, cognitive processes, emotional responses, and social influences shape the choices that people make. At the organisational level, formal rules, informal norms, and power dynamics govern collective action. At the societal level, historical legacies, cultural values, and political structures create the broad context within which lower-level processes unfold.

D Case studies from diverse geographical and cultural settings provide compelling illustrations of these dynamics in action. In one particularly well-documented example, researchers tracked developments over a fifteen-year period in a setting that offered a natural experiment in the effects of policy change. The introduction of a new regulatory framework produced a cascade of adaptations that rippled through the entire system, generating outcomes that both confirmed theoretical predictions and revealed previously unrecognised complexities.

E Several unresolved debates continue to animate scholarly discussion in this field. Perhaps the most prominent concerns the relative importance of structural versus agentic factors in determining outcomes. While some researchers emphasise the constraining power of institutional and economic structures, others highlight the capacity of individuals and groups to exercise agency and effect change even within seemingly restrictive contexts. This debate has significant practical implications, as it shapes recommendations for policy interventions and institutional reforms.

F The future trajectory of research in this area will likely be shaped by several converging trends. Advances in computational methods and data science are opening up new analytical possibilities, enabling researchers to detect patterns and test hypotheses at scales that were previously unimaginable. Simultaneously, growing recognition of the importance of interdisciplinary collaboration is breaking down traditional barriers between fields and fostering innovative syntheses of diverse theoretical perspectives.

G In conclusion, the study of the development of the novel as a literary form represents a vital and dynamic area of contemporary research. The progress that has been made in understanding the key mechanisms and dynamics provides a solid foundation for both further scholarly inquiry and practical application. The challenges that remain should be seen not as reasons for discouragement but as opportunities for continued intellectual growth and social contribution.

Question 1

Choose the correct letter, A, B, C or D.

- 1 What does the passage identify as a significant challenge to current understanding?
- A. excessive research funding
 - B. translating academic findings into practical policy
 - C. lack of public interest
 - D. too many international collaborations

Question 2

Complete the sentences below. Choose NO MORE THAN THREE WORDS from the passage for each answer.

- 2 The author notes that researchers have called for more _____ approaches to investigation.

Questions 3–4

Choose the correct letter, A, B, C or D.

- 3 According to the text, what role do structural factors play?
- A. excessive funding
 - B. theoretical and methodological limitations
 - C. public interest
 - D. international collaboration
- 4 The author suggests that early studies in this field were limited by:
- A. weak effects across studies
 - B. moderate to large effect sizes with consistency
 - C. contradictory findings
 - D. results only in specific populations

Questions 5–7

Do the following statements agree with the information given in the passage?

Write TRUE if the statement agrees with the information

Write FALSE if the statement contradicts the information

Write NOT GIVEN if there is no information on this

- 5 All critics agree that the research findings are universally applicable.
- 6 The passage suggests that structural factors are less important than individual choices.
- 7 Policy-makers have fully implemented all research recommendations.

Question 8

Complete the sentences below. Choose NO MORE THAN THREE WORDS from the passage for each answer.

- 8 According to the text, cognitive processes shape the _____ that people make.

Question 9

Do the following statements agree with the information given in the passage?

Write TRUE if the statement agrees with the information

Write FALSE if the statement contradicts the information

Write NOT GIVEN if there is no information on this

- 9 Contemporary understanding of this topic is more sophisticated than it was fifty years ago.

Question 10

Complete the sentences below. Choose NO MORE THAN THREE WORDS from the passage for each answer.

- 10 The author notes that researchers have called for more _____ approaches to investigation.

Question 11

Choose the correct letter, A, B, C or D.

- 11 What finding emerged from the landmark study discussed in the passage?
- A. excessive research funding
 - B. translating academic findings into practical policy
 - C. lack of public interest
 - D. too many international collaborations

Question 12

Complete the sentences below. Choose NO MORE THAN THREE WORDS from the passage for each answer.

- 12 The landmark study analysed data spanning a period of _____ years.

Question 13

Choose the correct letter, A, B, C or D.

- 13 According to the passage, what is one of the key factors identified by researchers?
- A. minimal impact
 - B. creating underlying conditions for action
 - C. determining individual choices directly
 - D. irrelevant to outcomes
